### Sights in Constantinople.

The mesque of Achmet I, built about 1020-1630, A. ### Some Curlous Locks and Keys.

In the middle ages, locks for church and or hedral doors were often hare specimens of art metal work. Elaborute scholls, the images of saints the design of locks which were really an ornament to the magnificent doors and the escutcheon surrounding the keyhole equently had the figures of two guarthe nagels with outspread wings tooks of very curious construction, known as "Apostle looks," were also common in medieval times These looks had on the front the figure of one of the Apostles, and on touching the In the regard the bolts flew back. In the reign of Queen Lhzabeth, one Mark Scalist, a smith, constructed a lock consisting of eleven pieces of iron. steel and brass, all of which, with a pipe key, weighed only two grains of gold. That great inventor, the Marquis of Workster, who flourished in the reign of King Charles I, devised a lock contuning a steal bath, which was per fictly harmless so long as the right key was u.cd, but if a wrong key were in surted the barb sprang through the key hole and "crught the hand of the intruder as a trap catches a fox " It is said that while the inventor was experi menting with his curious lock he was scarcely numble enough in removing his hand, and was caught in his own trap. In the waters of British North Americ t as we are informed there is a fish, an old fish, as surprising in its ways as the sea serpent, and infinitely more use tol. Pittsburgh, PA., September 8.-A special telegram from Coal, Center states that Sheriff Chambers of Washington County has arrived accompanied by one deputy, and will make arrangements to furnish ample protection for all miners who desire to go to work. The indica-tions are that many will avail themselves of the opportunity. All was quiet in the Fourth Pool yesterday, and no further trouble is anticipated. About fifty more men joined the strikers' camp yesterday

At the Miners' Association office in this city no later intelligence had been recolved from the river.
"There will be a meeting of the repre-

Texas Republicans.

Houston, Tex., September 3.-The Republican State Convention assembled at eleven o'clock this morning in the same hall where the Democratic Convention was held, the only difference in arrangements being that pictures of Blaine and Logan instead of Cleveland and Hendricks ornamented the walls. H. J. Rosenthal was elected tamporary chairpointed, and the convention adjourned until to-day. Hon. C. C. Blinkley has telegraphed that he will not run on the simight Republican ticket. In such event the convention will no doubt split when they get down to business.

ALBANY, N. Y., September 2 .- Hon. Roscoe Conkling passed through Albany on his way to Utica, where Hon. George C. Gordon will spend a few days with him. The half-breed politicians here are curious to know the movements of these stalwart leaders. Some of them fear that they forbode no good to Blatne's canvass, while others suspect that some sort of a conference is going on over a proposition of certain friends of Blaine to return Conkling to the United States Senate. It may be stated on author-ity that there is no foundation for the story that Conkling will try to go back to the Senate. He would not take a seat in the Senate if it was have been sounded to see If Conkling would make three or four speeches for proached on the subject and his answers have been such as to leave no doubt in the minds of his friends that official sta-tion has no further affurements for him. WHITE RIVER JUNCTION, VT., September 3.—The election in this State yesterday was for Governor and other State officers, members of Congress and a Legislature, which will choose a successor to Senator Morrell. The returns so far indicate a failing off of the Republican vote from that of 1880 of about fourteen per cent., and a falling off of the Democratic vote of 1880 of about pine per cent, and a consequent decrease of the Republican plurality. The Republican State ticket is elected by 20,000 plurality. Both Republican candidates for Congress, J. W. Stewart and General W. W. Grout,

COLUMBUS, O., September 3.-There was no disturbance in the Hocking Valloy mining region yesterday. The Governor ordered Company K, Fourtcenth Regiment, to Longstreth, to reinforce Company A, Seventeenth Regiment. There is now four companies in the valley, Company K, Fourteenth Regiment; Company A, Seventeenth Regiment, and Companies E and F, Sixth Regiment. The Governor being asked yesterday for his views of the situation on a personal tour, expressed himself as follows: "I think that the position of things is rather threatening. The number of persons implicated in the disorderly proceedings has been greatly exaggorated, still there is an element among the strikers who are disposed to give trouble. I do not think they would muider or destroy property, but there are others in-tent upon annoying the working miners and obstructing the work. I have no doubt, but for the presence of the guards, the strikers would have forced every miner out of the mines. I do not think the situation so serious as Sheriff McCarty seemed to regard it. He seemed to think the Logan Jail was in danger, but I do not. I place great rehance upon the judgment of Judge Friesner, who accompanied me yesterday. He does not think the situation is so serious as has been represented. However, I have furnished three companies of soldiers and cap, for Governor, 8,896; Redligton, will send a fourth to-day, out of abund-Democrat, 4,021. Scattering, 101. Republican plurality 4,875. I wish to add sald the Governor in closing his remarks, "a word in explanation of what the Journal calls my vacillating policy. The Flag Springs Murder. Sr. Joseph, Mo., September 3.-The excitement regarding the murder of the McLaughlin girls, at Flag Springs, conthrues. The Coroner held an inquest yesterday forenoon, and the result of it is that a young man, David Bateman, who lives in the neighborhood, and about eighteen years of age, is arrested, and there is strong talk of lynching hun.

The young fellow was arrested Mon-ida), but released. He is the son of a farmer named Thomas Bateman. Yes-terday strong circumstantial evidence came to light, and he was immediately rearrested by Captain Stotts. The young man is eighteen years of age and of fair Intelligence. He seemed to bear a good reputation in the neighborhood of Flag Springs, is of a quict disposition and thought to be perfectly harmless. The little girls had been visiting on Sunday, and on their return home Bate-man and a small boy were seen walking ahead of them. When they arrived at a small bridge near the cornfield in which the bodies were found. Bateman sent the little boy who accompanied him, on to Sunday-school, making some trivial excuse for not going with him at the time, and telling him that he would be there in a few minutes. Bateman failed to put in an appearance at Sanday-school, which was something unusual for him, especially on that day, as he had made special preparations to attend. Two neighbor girls testified before the Coroner's Jury that young Bateman had recently made an attempt

to persuade them to go into this same corn-fleid near the bridge.

This is the strong circumstantial evidence that points to young Bateman's Hundreds of people are flocking into Flag Springs, and the young man upon whom the suspicion seems to center so strong is liable to swing into the air on the end of a piece of hemp at any mo-

It is known in the near neighborhood that young Bateman has a spite against the McLaughlin children, and when Mc-Laughlin met his wife at the gate directly after inding his children, and ex-claimed to him: "My God! am't I having bad luck; both my children murdered? Mrs. McLaughlin immediately exclaimed: "It's Bateman's work." She told a neighbor's wife yesterday that young Bateman had for some time had an ill feeling toward her children and that she believed he was the guilty wretch. At last reports from the scene Bateman was on the way from Flag Springs to Savanuan in custody. The probabilities were that he would be lynched before

Yesterday John Sanders, fireman on the Wabash, was brought to Decatur from Forrest and taken to his home. He met with a frightful accident Sunday night, by falling from the cab of a passenge engine while it was going at the rate of nearly fifty miles an hour. The engineer was Frank Bloom. Sanders, in the rush of the train through the darkness, missed his footing by the jolting of the engine and fell backwards off the cab. The train was stopped. Sanders was found in the ditch dreadfully bruised and apparently dead. He was picked up and taken to Forrest, where he remained in an unconscious condition until yesterday morning. It is a wonder Sanders was not killed outright. But he is a tough young man with an iron constitution and will doubtless recover. He received no frac-

All On the Chain Gang. Last night the depot officers, ever on the alert for tramps and sneak thieves captured a hard looking gang of seven men and one boy, who had come to Decatur on a freight train, not knowing that this is a city where that scare-away punishment, the chain gang, is in active operation. The whole party was stowed away in the first ward calaboose, and this forenoon each was fined \$3 and costs by Justice McGorray. The stragglers, who are ragged and dirty, will commence

work at once on the chain gang. PERSONAL MENTION.
